G F PRESIDENT 78 A x - You can't eat color and there are not many T bones in a really good head. But did you ever try to sell a spotted bull with a good head or a good colored bull with a mean head to a breeder that is headed up with his herd? This bull has about everything you wish in a herd sire - color, very good head, plenty of bone, lots of quality, straight lines and good weight for age. Out of a Glatwyn Jealousy cow that is certainly doing a job for us. She is out of the El-Vi-Dor Chicago Grand Champion and a half-sister to another Grand Champion. We are using this bull on some of our cows.

G F PRESIDENT 82d x - The 82d is we think the greatest bull we have ever offered. Has about everything most people want in a bull. We think it is much better to use a bull that is pretty darn good everywhere than one that is extra good in some places and poor in others. This bull is hard to fault, good lines, quality to burn, plenty of bone and a tremendous head. Again, we say you can't eat color and not much steak in even a good head but you had better have them in your herd bull. This bull could have gone to a National Sale and be a stand-out we think. Will probably be a bargain at the Missouri Sale. Don't over look this one. Weight 1200lbs at 15 months brought up the hard way.
